

Guilford Center for Children hosts Dr. Alicia Farrell on 11/7/17 at 6:30 pm! All are welcome! Please join the discussion about technology in our children's lives.

Raising the Touch Screen Generation

Are you concerned or confused about the role technology should play in our children's daily lives and how technology is influencing the civility in our culture? Join us for a talk that will answer these important questions:

- How does technology effect early-childhood brain and social-emotional development?
- How much technology is too much? Is technology addictive?
- What is the difference between "good" and "bad" technology?
- What role is technology playing in the breakdown of civility and communication in this country?
- What responsibility do we have to shape the use of technology in our lives?
